Rating Systems Compared: National Green Building Standard and LEED for Homes

Presented by: Lauren Hildebrand

Wednesday, June 19, 2013

6:00 pm to 8:00 pm

**Gomen Kudasai
232 Main Street
New Paltz, NY**

Description:

It's 2013: Do You Know Where Your Green Rating Systems Are?

Learn the history of two building rating systems: the National Green Building Standard and LEED for Homes. Understand the major differences between the two; how to adapt them to specific projects and how to address the challenges they present. Hear lessons learned and compare projected vs. actual energy consumption on recent multifamily case studies.

About the Presenter:

Lauren Hildebrand, LEED AP BD+C, Steven Winter Associates, Inc., Senior Sustainability Consultant, LEED for Homes Green Rater. Lauren has over eight years experience in sustainable building design and construction, specializing in both residential and commercial energy efficiency, LEED certification, NGBS certification, ENERGY STAR, and various incentive programs offered in the greater New York area. Prior to her work at Steven Winter Associates as a Senior Consultant, Lauren worked in programming at the Urban Green Council New York City Chapter, as well as on the Construction team at Battery Park City Authority. Lauren has her MA from New York University and BA from Gettysburg College.
